

## MEDIA RELEASE

Sept. 21, 2012

Contact Person: Ryan Dixon, Solid Waste Division Civil Engineer 961-8296

---

### **Construction at Kealakehe Recycling and Transfer Station**

#### ***Notice – Progress Ahead***

Kealakehe Recycling and Transfer Station is currently under construction upgrade. The project will improve user access and traffic flow through the site. It includes recessed recycling bins, new pavement and traffic flow, upgraded drainage features, landscaping, a new residential green waste drop-off chute, and a new reuse facility. The recycling and transfer station will remain open throughout construction.

Due to limited space while performing the construction work, the site will be more congested than usual causing users to experience some brief delays. We ask that users be patient during this time as we complete the transfer station upgrade. We apologize for any inconvenience and will make every effort to bring everything back to normal.

The construction project is on schedule for completion in February 2013.

For more information, contact Ryan Dixon, SWD Civil Engineer, at 961-8296 or go to the County Solid Waste Division's website: [www.hawaiizerowaste.org](http://www.hawaiizerowaste.org)
